

## Eastern Reliability Represents EPG!

With over 5,000 installations, EPG has become the choice among thousands of environmental professionals.

Since 1985, EPG Companies Inc. has designed and manufactured pollution control systems and equipment that are being used worldwide in various landfill, remediation, water and wastewater and industrial applications.

## EPG SurePump™ Leachate Pumps & Sump Drainers

Innovation, patented design and accurate liquid level sensing are reasons why the [EPG SurePump™](#) sump drainer is the leachate pump of choice among landfill professionals. With thousands of successful installations worldwide, SurePump™ offers proven reliability, long life, and trouble-free service.

Other EPG Pumps:

## Odor Control & Fugitive Gas Solutions

LTL [Biogas Flares](#) are widely used for odor and emission control when vacuum assist is required, such as cap vents, leachate stations, or from gas outbreaks at the surface of active or closed landfill cells.

These units are ruggedly constructed for long life and feature solar-powered continuous ignition with very low maintenance requirements. Skid and trailer mounting options are available to adapt to any situation.

### Applications:

RF Series LTL Biogas Flares are typically used on landfill gas vents, wells, or leachate system cleanout lines to combust flammable gases.

[Eastern Reliability](#) regionally represents **ASSMANN Polyethylene Tanks**, **JUSTIN FRP Tanks**, **MASS Tank** for steel and high alloy tanks, **Plastic Concepts** for Plastics Fabrication, **EPG** for Landfill Leachate and Hazardous waste site pump, control and gas applications, and **Tylok International** for fittings, valves, and hose products. Eastern Reliability works closely with Industrial Distribution, OEM and Engineering firms to solve chemical storage, process and pumping problems.

**Think of Eastern Reliability to solve all of your difficult Industrial and Chemical Tank and Transfer needs.**

Thank you for your continued support. Todd Mac
