

## *Mass Tank Inspection Services, LLC*

85 years of experience manufacturing all types of steel tanks, combined with more than a decade of conducting American Petroleum Institute compliant tank inspections establishes Mass Tank Inspection Services, LLC as exceptionally qualified to offer the following inspection services;

- API 653, API 510, API 570, SP001-06, AWWA, ASME Risk Based Assessments
- Mechanical Integrity Assessments for compliance with Process Safety Management (OSHA PSM) and Risk Management Plan (EPA RMP).
- Spill Prevention, Control & Countermeasures Plan tank inspection compliance.
- Third Party Underground Storage Tank Inspections.
- Annual Valid Use Permit Inspections for tanks over 10,000 gallons.

Mass Tank Inspection provides the highest qualified and fully certified NDT inspectors in the industry to fulfill its clients' individual specifications.
